Innovations to Website Include Expanded Functionality

Since its original redesign, our website has taken on several new user-friendly features and options to help our clients get the most out of their relationship with Metro. Here are some of the highlights of our available tools:

Potential new customers- Interested in learning how Metro can help your organization? Email address sales@metrogroupinc.com sends messages directly to our Director of Business Development for distribution to the appropriate Account Manager. We guarantee a response within four hours during our regular business day!

MSDS requests- Email your requests directly to our technical department! Departmental contact information may be found on the Tech Info/Alerts and Questions page. A response is guaranteed within four hours during our regular business day.

Technical assistance- Not sure how to handle a particular chemical, equipment, or technical concern? Email our technical experts! Their contact information can be found on the Tech Info/Alerts and Questions page.

Health and safety information- Visit our Products and Services: Water Hygiene page for information on keeping your cooling systems safe throughout the summer months. Access important links for valuable information, and send us an email or give us a call if information you need is not available.

International resources- Not located in the United States? Visit our Products and Services: Areas of Expertise and Applications page. There you can view a detailed listing of our international services. Contact information for our international experts is located on the Contact Us page.

We look forward to assisting you soon!
